MANUAL OF ROAD IS BROADCAST BY SAFETY COUNCIL

Courtesy Expected to Replace that of Mean Selfishness

Road hogs are out of date! Motorists who keep to their own side of the pavement will no longer develop high blood pressure honking at those who hold to the middle of the highway. Automobile horns will last longer. Deaths and injuries from traffic accidents will be materially reduced.

In other words, courtesy is expected to be substituted for selfishness on the streets and highways of California during August, in response to the campaign instituted by the Safety Conference of the California State Chamber of Commerce. The safety Conference, with the cooperation of other interested organizations, will endeavor to educate the motoring public during this month, to higher standards of highway behavior.

The manuel of road etiquette, broadcast by the Safety Conference, includes the following do's and don'ts:

1—Do use proper arm signals.
2—Do keep to right side of the road.
3—Do slow down at intersections.
4—Do keep within the speed limit.
5—Do be alert and careful.
6—Do have adequate brakes.

1—Don't hog the road.
2—Don't throw burning matches or lighted cigarettes from cars.
3—Don't drive with one arm.
4—Don't crowd or cut in.
5—Don't be irritable.

Application of this code of road ethics is expected to increase the safety of both pedestrians and motorists, it is stated.

Washington Union High School Band Makes City Trip Sunday

On Sunday, August 17, about twenty members of the Washington Union High School Band had an all-day outing in Golden Gate Park. After a boat ride on Stowe Lake the band drove to Sutro Baths and had a wonderful time in swimming. Several members who could not swim before, learned the secret of feeling like a fish in the water. Following a picnic lunch the party next attended the regular Sunday afternoon concert of the Golden Gate Park Band.

Director Ralph Murray had most generously consented to play several of the pieces on which the Washington High School Band has been practicing during the summer, including the famous William Tell overture. Golden Gate Park Band also gave the party a real thrill by playing "Finlandia," a piece which local boys and girls played as their chosen number at Sacramento in the last California State Band Contest.

After the concert the party had a hard time in finding their way home, actually getting lost in San Francisco so that maps had to be consulted. On the way home a stop was made for further refreshments, and the last member of the band reached home just before dark. Everyone had a most enjoyable time.

The high school board offered one of the school busses to transport band members. This was driven by Frank Madruga. A. A. Bettencourt, of Centerville, and Miss Margaret Sinclair, of Irvington, accompanied the band on this trip, which was under general direction of John E. Kimber, instructor in instrumental music. Following are the names of players who made the trip:

Aurelie Antron, Isabel Azevedo, Annie Bettencourt, Cecil Bettencourt, Eugene Bettencourt, Evelyn Bettencourt, Vincent Bettencourt, Masako Hiroboyashi, Swaye Ichisaka, Clarence George, Tokuki Nitta, Milton Munger, Clairmond Oliveira, Evan Orelli, Stanley Roderick, Lucile Sinclair, John J. LOUIS J. KENNEDY, present county assessor, and candidate to succeed himself, was born and raised in Oakland and is now a resident of the Lake district.

As a lad he attended the public schools of Oakland and graduated from the Oakland High School in 1899 but during his high school career, he missed several terms as he was anxious to see the world and followed the sea, traveling to many points on the Pacific Ocean.

He also worked during vacations as a machinist helper and afterwards dynamo tender with the Oakland Gas, Light and Heat Company. This work he continued while attending the University of California.

Always an athlete and baseball player, after leaving college, he played professional baseball for a while, but finally settled down to the practice of his profession, that of civil engineer in railway service.

After a few years he took up the valuation and assessment of realty, which has had his constant attention for the past twenty-two years—for the last nine years as assessor of Alameda county.

His length of residence in the community and his training in the hard schools of life and his technical knowledge fit him for the office he now holds and it is the hope of his friends that he will be returned to the position at the coming election.

To his deputy in Washington Township, Emanuel George, he is greatly indebted for the knowledge he has acquired in the appraisal of county lands.

PHILCO RADIO HAS NEW VOICE TONE CONTROL

Radio sets are literally selling themselves these days. Vieux Brothers, Pilco radio dealers here, have only to sit back and hear sets tell prospective purchasers their good points. From a tapestried grille of a Philco combination radio and phonograph set a voice urges the listening prospect to "turn the Tone Control knob, the one on the extreme left, as far to the right as it will go. There—notice how my voice has deepened, how the deeper notes are enriched and brought out? Now turn it again when the orchestra plays."

A listener manipulates the knobs as the voice directs, with the result that the advantages of the receiver are explained by one without a word from Vieux's salesmen.

The secret is a new phonograph record put out by Philco to demonstrate how a new engineering device, tone control, works. It is played on the new combination radio-phonograph and while the Philco Symphony Orchestra, under the direction of Howard Barlow, plays, a voice shows the listener just how to turn the tone control knob. Effect is immediately noticeable in the tone of music the orchestra is playing.

All new Philco models, a shipment of which arrived here recently, are equipped with tone control, radio's latest engineering triumph perfected by Walter E. Holland, Philco's chief engineer, Vieux Brothers announced.

BUSINESS INTEREST SOLD

C. H. Waterbury of Centerville has sold his interest in the local branch business of Dohner and Galbraith, Inc., to Ira Hodgkins, his former partner. MORE ON PAN-AMERICAN TRADE

Continued from Page one)

in official capacity as representative of Schuckl Cannery, of Niles, and the F. E. Booth Cannery at Centerville. Mr. Donovan will carry letters from these two business concerns.

M. E. Sanchez, who is also of the California Nursery staff, is making the state tour with the delegates. He joined the visitors at Los Angeles, where the first activity took place.

Origin

Pan-American Reciprocal Trade conference resulted from the endeavors of Mario Estrada, agricultural engineer, and two representatives of Sacramento Region Citizens Council, who met in South America while the California men were there last year for the purpose of studying possibilities of increasing markets for certain commodities. Each country visited was asked to send a delegate to the conference in northern countries. Estrada suggested a conference, the purpose of which was to allow all American countries to "get-together" at one time. Among the most forceful contributing agents has been the Hon. Juan Carlos Godoy, consul general of Argentina in San Francisco, who was able, through his official public statements, to spread the gospel of reciprocity. A stimulation of trade, and development of a closer relationship among farm, civic and business leaders is the purpose of this conference. Sponsors, speaking freely, believe that many problems of vexing nature may be solved as the character of the conference is entirely unofficial and delegates will be allowed to discuss any topic vital to issues uppermost without thought of diplomatic expediency.

Invitations

Scope of the conference included invitations sent out to all representative farm, civic, and business organizations asking them to send their delegates. Consequently the result of this movement was acceptance of the invitation from many of the twenty countries as well as Canada and Porto Rico. Governor C. C. Young welcomed delegates to California and offered them state hospitality to the fullest extent while on the tour.

Other men actively interested in this conference aside from those already named are Simon J. Lubin, president of the Sacramento Region Citizens Council; Hon. B. B. Meek, director of California Department of Public Works; Dr. Amando Torillo, Manuel Escobar Vega, of the newsaper El Imparcial, and Edgar Jeannau, who is deeply interested in transportation by air. In addition to the men of the party, wives of several of the delegates are making the state tour.

New Welden Canyon road between San Fernando and Caastiac formally dedicated.

Today's Scripture LESSON

By Rev. John R. Stevenson

If we sin we are Thine, knowing Thy power; but we will not sin, knowing that we are counted Thine. For to know Thee is perfect righteousness; Yea, to know Thy power is the root of immortality.—Wisdom of Solomon XV.2,3.

Oh, empty us of self, the world, and sin,
And then in all Thy fulness, enter in;
Take full possession, Lord, and let each thought
Into obedience unto Thee be brought;
Thine is the power, and Thine the will, that we
Be wholly sanctified, O, Lord, to Thee.

—C. E. J.
